

INFORMATION ON THE NOVEL CORONAVIRUS & ENTRY TO DENMARK

Update 2 July 2020

The Academy recommends students and staff to follow the Danish national guidelines on testing and self-isolation.

Testing and self-isolation

The measures for preventing COVID-19 from spreading and the travel restrictions may be complicated to understand and can change on short notice in the coming months. RDAM is taking extra precautions, and to protect yourself and your fellow students, the Academy therefore recommends students arriving in Denmark to be **tested for COVID-19** or **stay at home for 14 days**.

Testing at Copenhagen Airport

It is possible to be tested for COVID-19 at Copenhagen Airport.
Please consult [the website of Copenhagen Airport](#) for details on how to be tested upon arrival in the Airport.
